

A silhouette of a city skyline against a sunset sky. The sky transitions from a deep orange at the top to a bright yellow near the horizon. The skyline includes several buildings of varying heights and shapes, with the most prominent one on the left being a tall, thin tower with a circular observation deck. The sun is visible on the right side of the horizon, partially obscured by a building.

Manufacturers of innovative  
visual communication solutions  
for the sign and display industries.

# CLIP-IN SIGN FRAME

Simple to install, simple to exchange signs

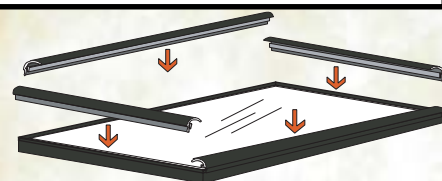

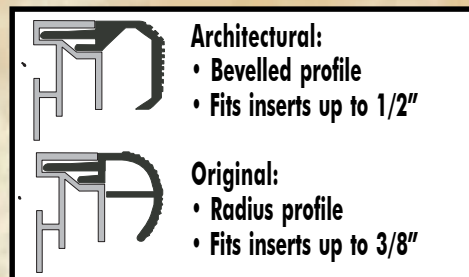

## FEATURES AND BENEFITS

- Endless applications
- Any rigid sign material can be used
